Cutting Dies

Contact ShoeSchool.com for complete details.

ABOUT US

*Hi,
I'm Jon*

Running my own steel rule die shop is a real pleasure for me. I've been making steel rule cutting dies since 1990 and continue to find much satisfaction in fulfilling the needs of customers and making them happy. I enjoy creating a cutting tool that perfectly cuts your material exactly to your design. I call it "*Personal Service with a **MASTER TOUCH.***"

Custom die construction continues to be fascinating for me. Cutting dies are fantastic tools that can perform an amazing amount of work in a short period of time. Thousands of cuts can be produced with one die. When the cutting rule gets dull, most dies can be re-ruled at a fraction of the cost.

We are located in Port Townsend, Washington where we serve local area customers. We also serve long distance customers with easy shipping and handling.

Look at our **PRODUCTS** and see some of the items our steel rule dies are cutting.

We eagerly apply our slogan toward every job that comes through our shop doors.

*“Personal service with a **MASTER TOUCH**.”*

Our goal is to serve industry diecutters with dies the *WAY* you want it and *WHEN* you want it. It’s really a *MASTER TOUCH* of satisfaction guaranteed.

RUSH ORDERS are a way of life for us. If you need your tools fast, then we work right along with your needs. That’s a great benefit for you because we enjoy our die making work.

Most cutting dies can be re-ruled and modified easily. You can always count on **PERSONAL** attention for your particular needs.

We sincerely thank all of our customers for letting us serve you.
